

Position from	Position onwards
1	2
2	5
3	5
4	7
5	11
6	11

. Left column is the position whose

median we are assessing for significant difference (1 The right column is the position whose median (and that of positions beyond) is significantly different from the corresponding position on the left column. For example the median number of citations for position 2 is greater than that of positions 5 and beyond, at 1
