

**Table 1:** Response time for different levels of global consensus

| Level of consensus | Consensus time | Stopping time | Response time |
|--------------------|----------------|---------------|---------------|
| 1                  | 15             | 23            | 8             |
| 0.5                | 18             | 24            | 6             |
| 0.1                | 23             | 30            | 7             |
| 0.01               | 34             | 44            | 10            |
| 0.001              | 44             | 51            | 7             |
