Countermeasure	Scheme
Personal Identification Number (PIN)	
Ear Shape	
Electrocardiogram	
Capacitive touchscreen	
Behaviour profiling	
Linguistic profiling	
Gait recognition	
Rhythm	
Touch dynamics	
Multi-touch interfaces	
Probabilistic polynomial time algorithms	
Initial random seed number	
A unique international mobile equipment identification number	
Encryption with pairwise master key	
Identity-based elliptic curve algorithm	
Tag number	
Keystroke analysis	
Diffie-Hellman key exchange	
Classification algorithms	
Chaotic hash	
Fingerprint	
Teeth image	
Voice recognition	
HMM biosensor scheduling	
Asymmetric encryption function	
Symmetric encryption function	
Hash function	
Elliptic curve cryptosystem	
Bilinear pairings	
Password	
Schnorr's signature scheme	
Self-certified public keys	
Graphical password	
Message authentication code	
Channel characteristics	
Face recognition	
Iris recognition	
Certificateless signature	
Homomorphic encryption	
Order preserving encryption	
Gaze gestures	
Arm gesture	
Signature recognition
